LICENSE / SERVICE TERMS

- License Bound to Device**
The license is bound to the device MAC address and is not transferable.
- One-time Rebinding Service**
In case of hardware failure, Atrust offers a special one-time rebinding service to bind the purchased license to another device with a different MAC address.
- 12-Month Service Period**
The rebinding service is available within 12 months after Atrust's delivery date; if purchase proof is provided showing the request is within 12 months after purchase, the service period may start from purchase date instead.
- Old License Replacement**
The old license is replaced in its entirety by the new license and must not be used anymore on the old device.

SOFTWARE SUPPORT

- Free software updates are provided within 3 years after product end of life.

Tested Compatibility
Verified to work with selected models from major brands.

One-time Rebinding
Special service for hardware replacement.

3-Year Updates
Free software updates within 3 years after EOL.

Centralized Management
Manage converted thin clients over the network via Atrust Device Manager.

PC TO THIN CLIENT SOLUTION

Atrust P2T Converter

Repurpose your aging computing device

Transform Existing Computers into Atrust Thin Clients

Atrust P2T (PC to Thin Client) Converter is designed to transform existing computers into Atrust thin clients. These computers then run as Atrust Linux-based thin clients and are manageable over the network by Atrust Device Manager installed on the host server.

Repurpose Devices • Central Management • Virtual Desktop Access • Extend Device Life

TURN YOUR AGING DEVICE INTO A THIN CLIENT

This section highlights the benefits of using the Atrust P2T Converter. It features a central diagram showing a laptop, a desktop PC, and a thin client connected to the converter. Surrounding this are four key features, each with an icon and a brief description:

- Simple Deployment**: Install and start quickly.
- Centralized Management**: Manage over the network via Atrust Device Manager.
- Broad Compatibility**: Works with laptops, PCs, and selected thin clients.
- Virtual Workspace Access**: Connect to cloud services and virtual desktops.

TECHNICAL SPECIFICATIONS

	Processor	x86-Architecture
	Memory	2GB
	Storage	4GB
	BIOS	USB boot support
	Management	Atrust Device Manager (ADM) / Atrust Client Setup (ACS)
	Software Maintenance	Regular software maintenance included up to 3 years after EOL

APPLICABLE DEVICE TYPES

This section displays the types of devices that can be converted into thin clients. It includes three categories, each with an image and a label:

- Laptop**: Image of a laptop.
- Desktop PC**: Image of a desktop computer system.
- Thin Clients from Other Manufacturers**: Image of a small black thin client device.

SUPPORTED PROTOCOLS

	Microsoft Remote Desktop
	Citrix ICA
	VMware View
	Parallels 2X Client
	SSH

Repurpose Devices
Give existing hardware a second life.

Easy Deployment
Quick installation and setup.

Wide Compatibility
Supports multiple computing device types.

Enterprise Ready
Built for centrally managed environments.
